ABOUT US

Rolltor Steel Industry LLP is a premier steel manufacturing company specializing in high-quality rolling shutter strips and steel products. Founded in 1990, we have established ourselves as a trusted name in the industry. Headquartered in Sangli, Maharashtra, we leverage advanced technology to deliver excellence.

Our commitment to innovation & collaboration enables us to provide cost-effective, high-performance solutions tailored to client needs.

OUR VISION

To become the gold standard in the steel industry, recognized globally for excellence, innovation, and technology.

We strive to shape the future of steel by seamlessly blending cutting edge technology with visionary thinking. Our aim is not just to meet expectations but to exceed them redefining strength, precision, and sustainability for tomorrow's world.

OUR MISSION

To deliver exceptional steel products and tailor-made solutions that raise the bar for craftsmanship and customer satisfaction.

We are committed to engineering excellence-offering durable, high-performance steel through innovation, customization and quality.

Our mission is to empower industries with reliable steel solutions that are crafted with precision and backed by service that sets us apart.

From a Modest Start to Industry Leadership

OUR JOURNEY

1990

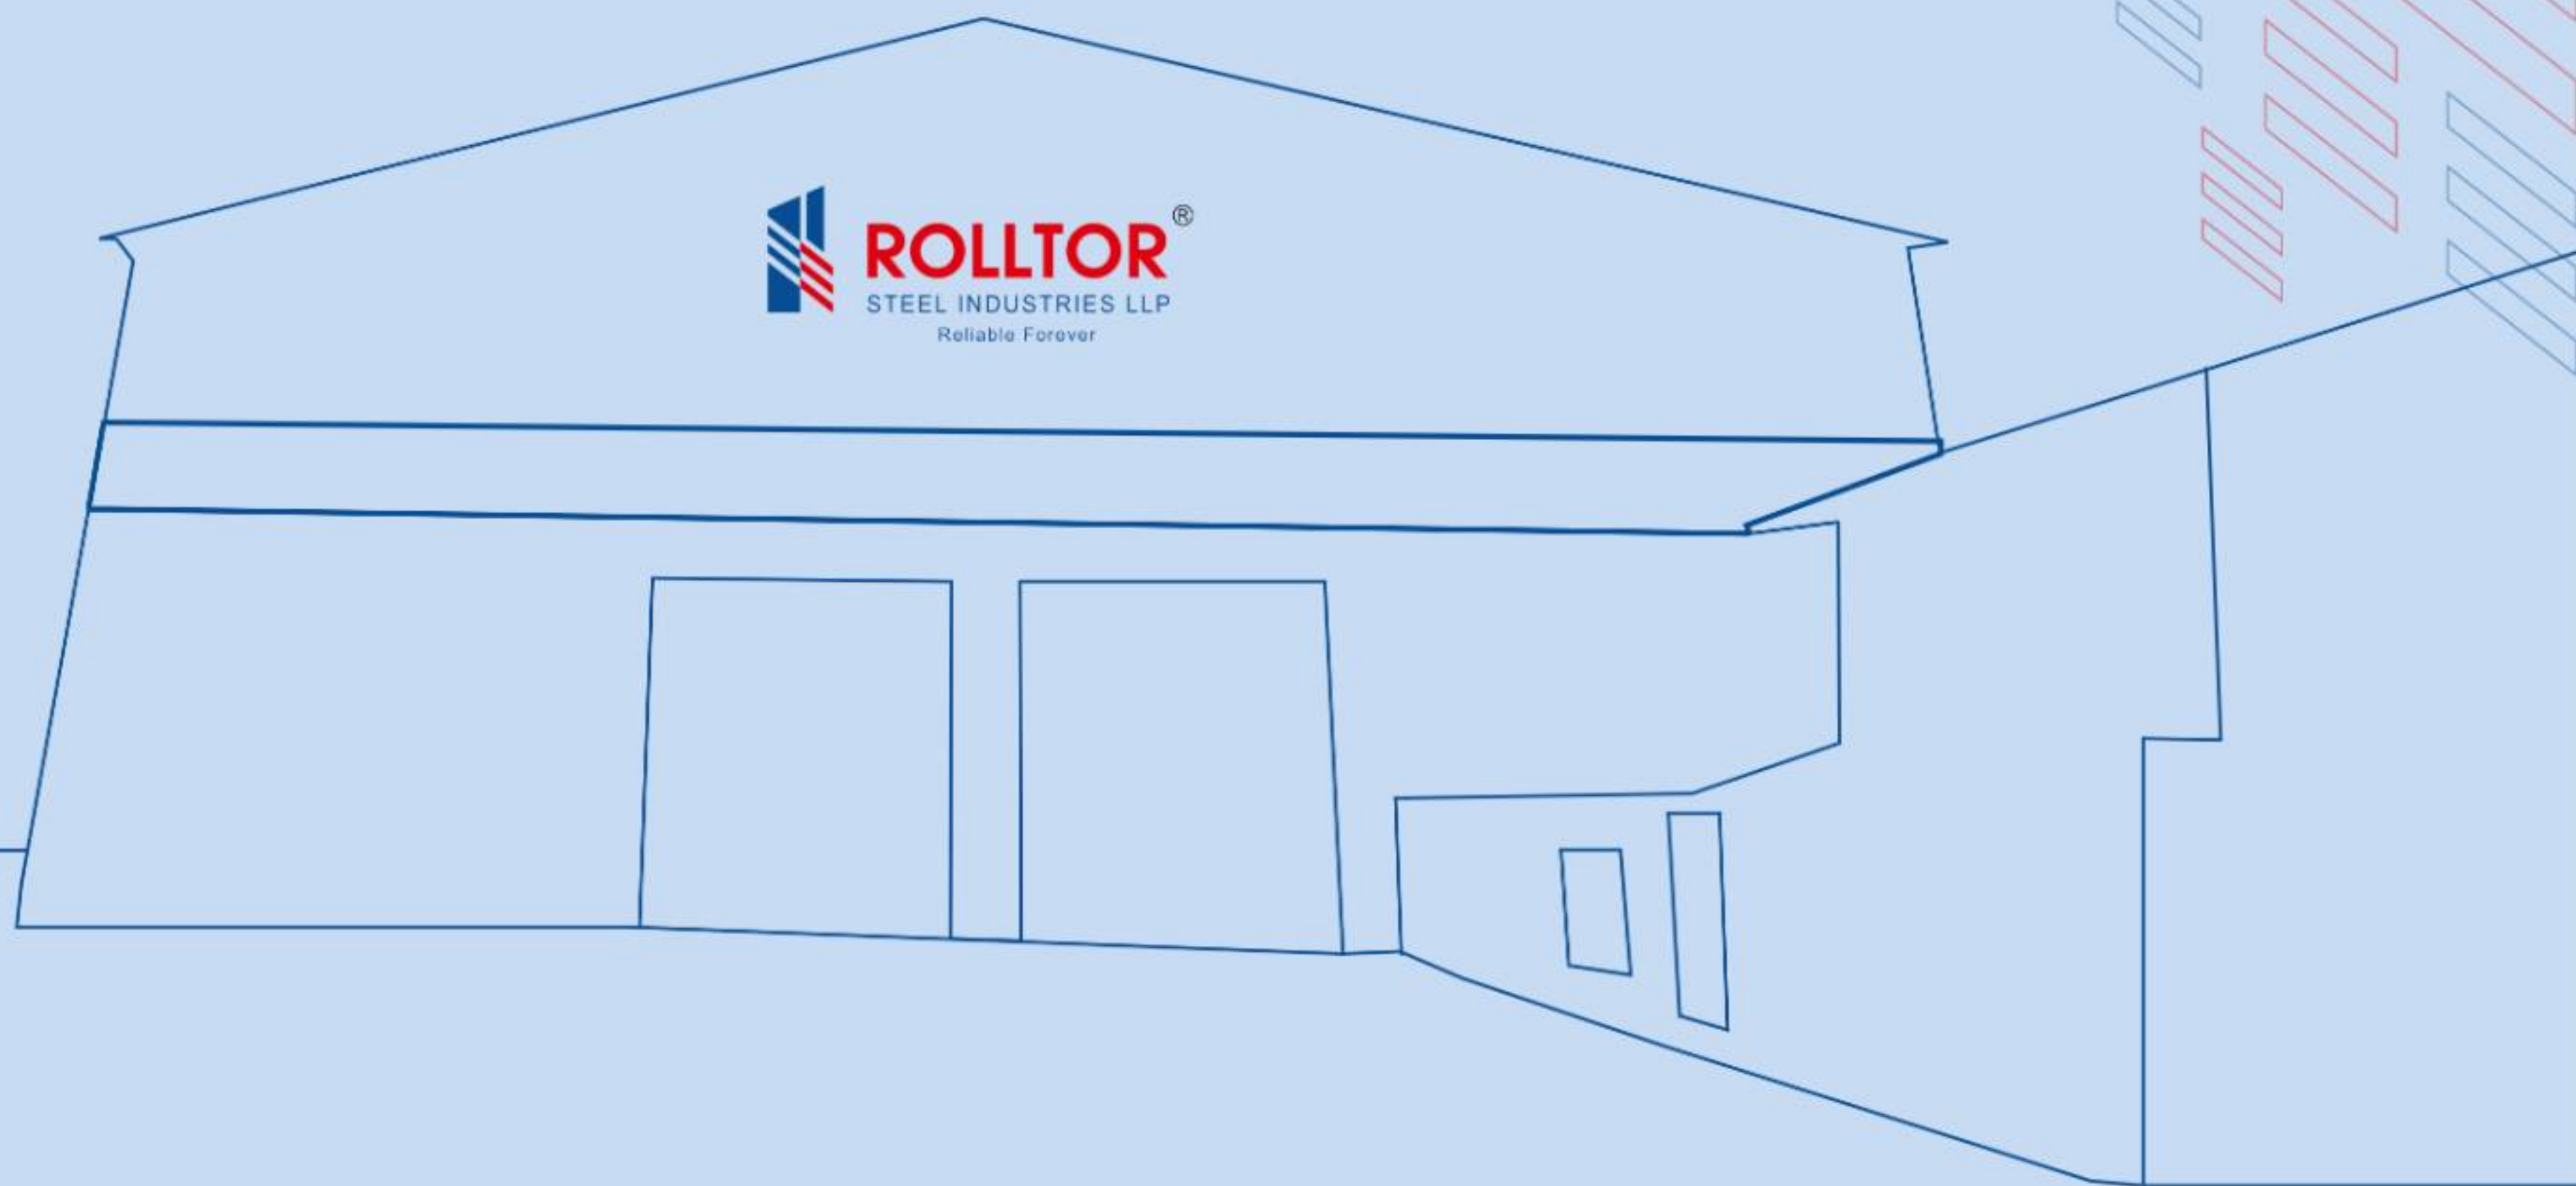

Prafull Fabricators started at MIDC Kupwad.
A humble beginning by Mr. Pradeep Patil laid the foundation for future growth.

2012

Sammati Industries launched at MIDC Kupwad
Marking a phase of innovation and expansion into new industrial territories.

2022

Rolltor Steel Industries LLP incorporated
A strategic leap toward advanced manufacturing and industry leadership.

ONGOING

Expanded presence across Maharashtra, Karnataka, Goa and Andhra Pradesh Equipped with cutting edge technology in shutter solutions and roll-forming Committed to quality, precision, durability and a future forward vision

INFRASTRUCTURE & MANUFACTURING

State - of - the - Art Facility

Integrated manufacturing unit with cutting-edge technology. Comprehensive production of shutter spare parts and roll-forming sections. Stringent quality control ensuring precision and durability.

SHUTTER STRIP

STRENGTH IN EVERY PANEL

Precision-engineered shutter strips for seamless operation and robust security. Designed for durability, corrosion resistance, and effortless installation

OUR SUB BRANDS -

DURA - STANDARD SHUTTER PANELS

Engineered for strength and durability. Ideal for commercial and residential use.

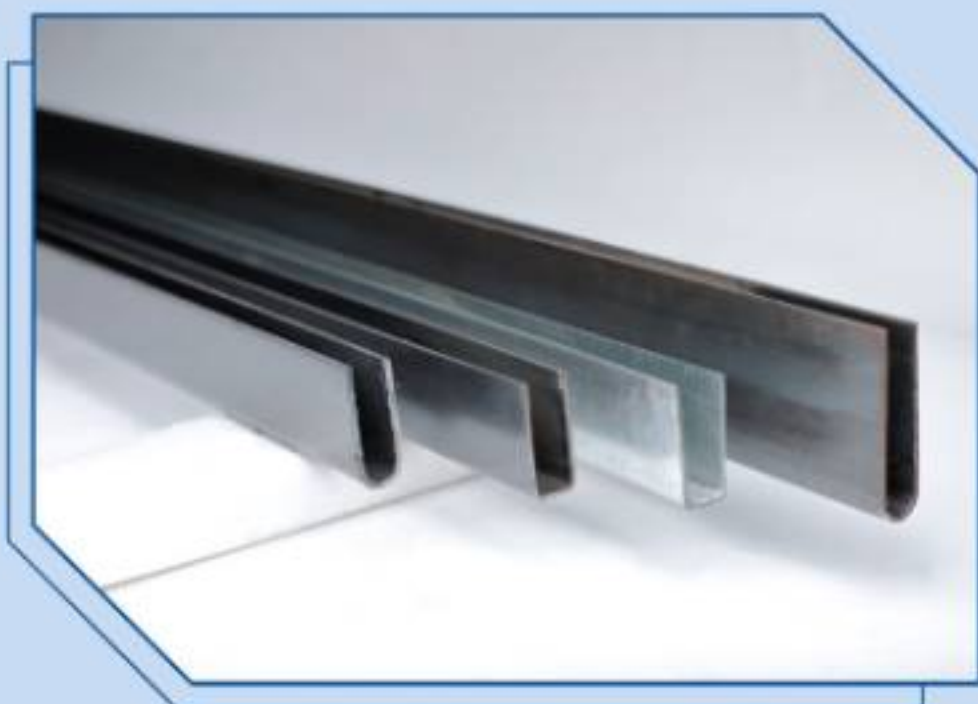

DURA+ - THICK SHUTTER PANELS

Higher gauge for enhanced durability. Suitable for heavy-duty & high-security applications.

PLATINO - GALVANIZED SHUTTER PANELS

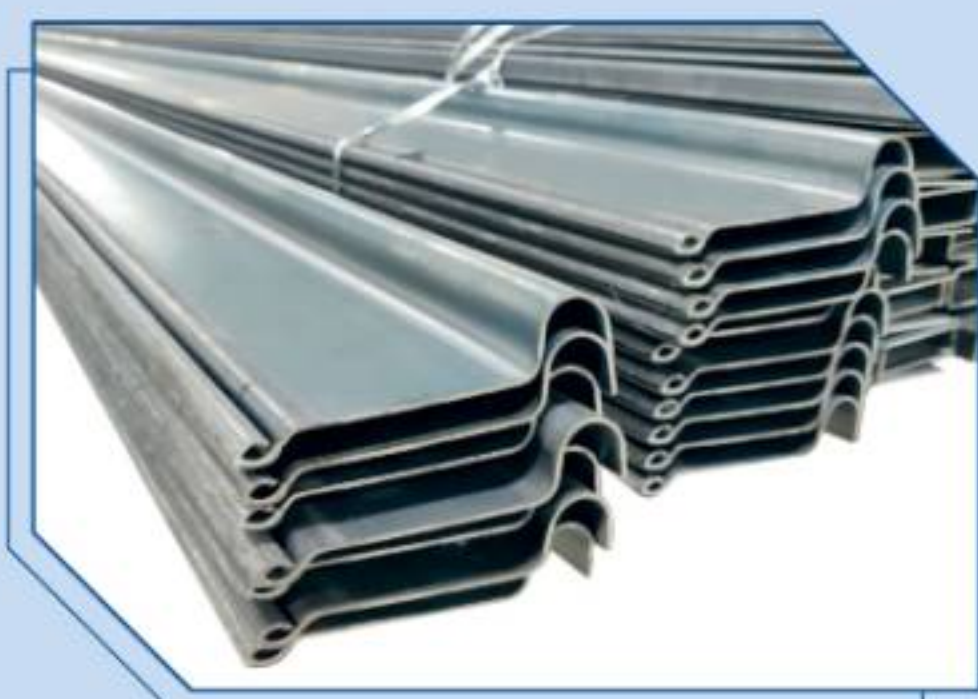

Rust-resistant galvanized steel for longevity. Modern aesthetics with superior durability.

SHUTTER GUIDE

SMOOTH, SECURE MOVEMENT

Essential for guiding rolling shutters with precision. Our high - quality shutter guides ensure effortless motion and long-term reliability.

SHUTTER BOTTOM

THE FOUNDATION OF SECURITY

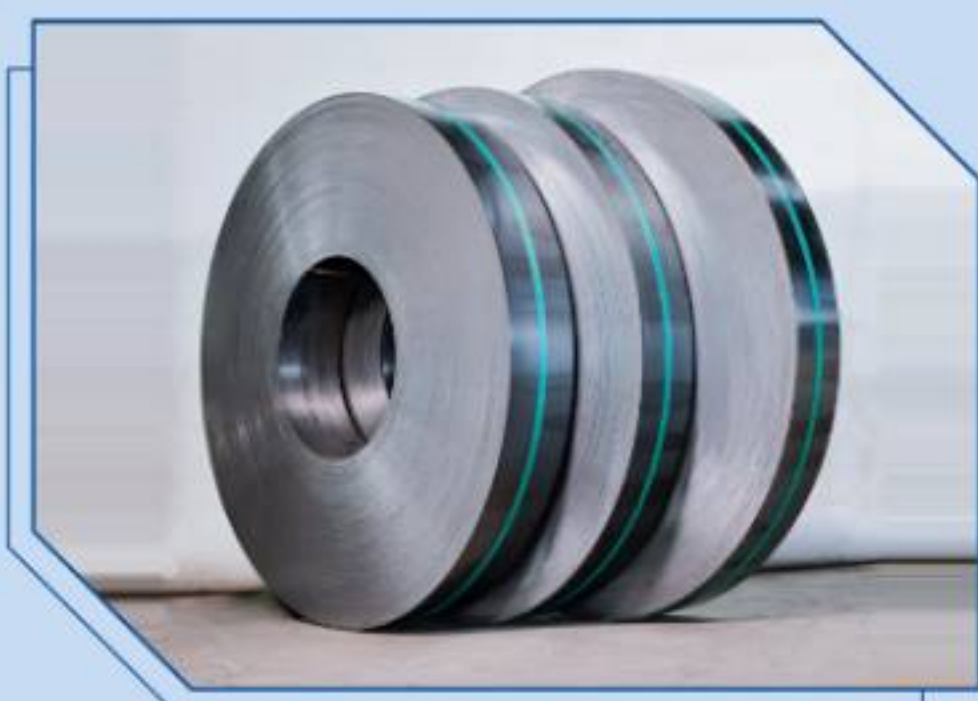

Reinforced shutter bottoms for added stability and enhanced safety. Built to withstand wear and tear while providing a secure fit.

SHUTTER SPRING

UNMATCHED RESILIENCE

Heavy - duty shutter springs designed for high performance and long - term durability. Engineered for smooth operation and superior load - bearing capacity.

SLIT COIL

PRECISION STEEL SOLUTIONS

Premium-quality H.R/G.P/CRC/Colourcoated slit coils for various industrial applications. High tensile strength, uniform thickness, width and excellent surface finish for optimal performance.

SOLAR STRUCTURE

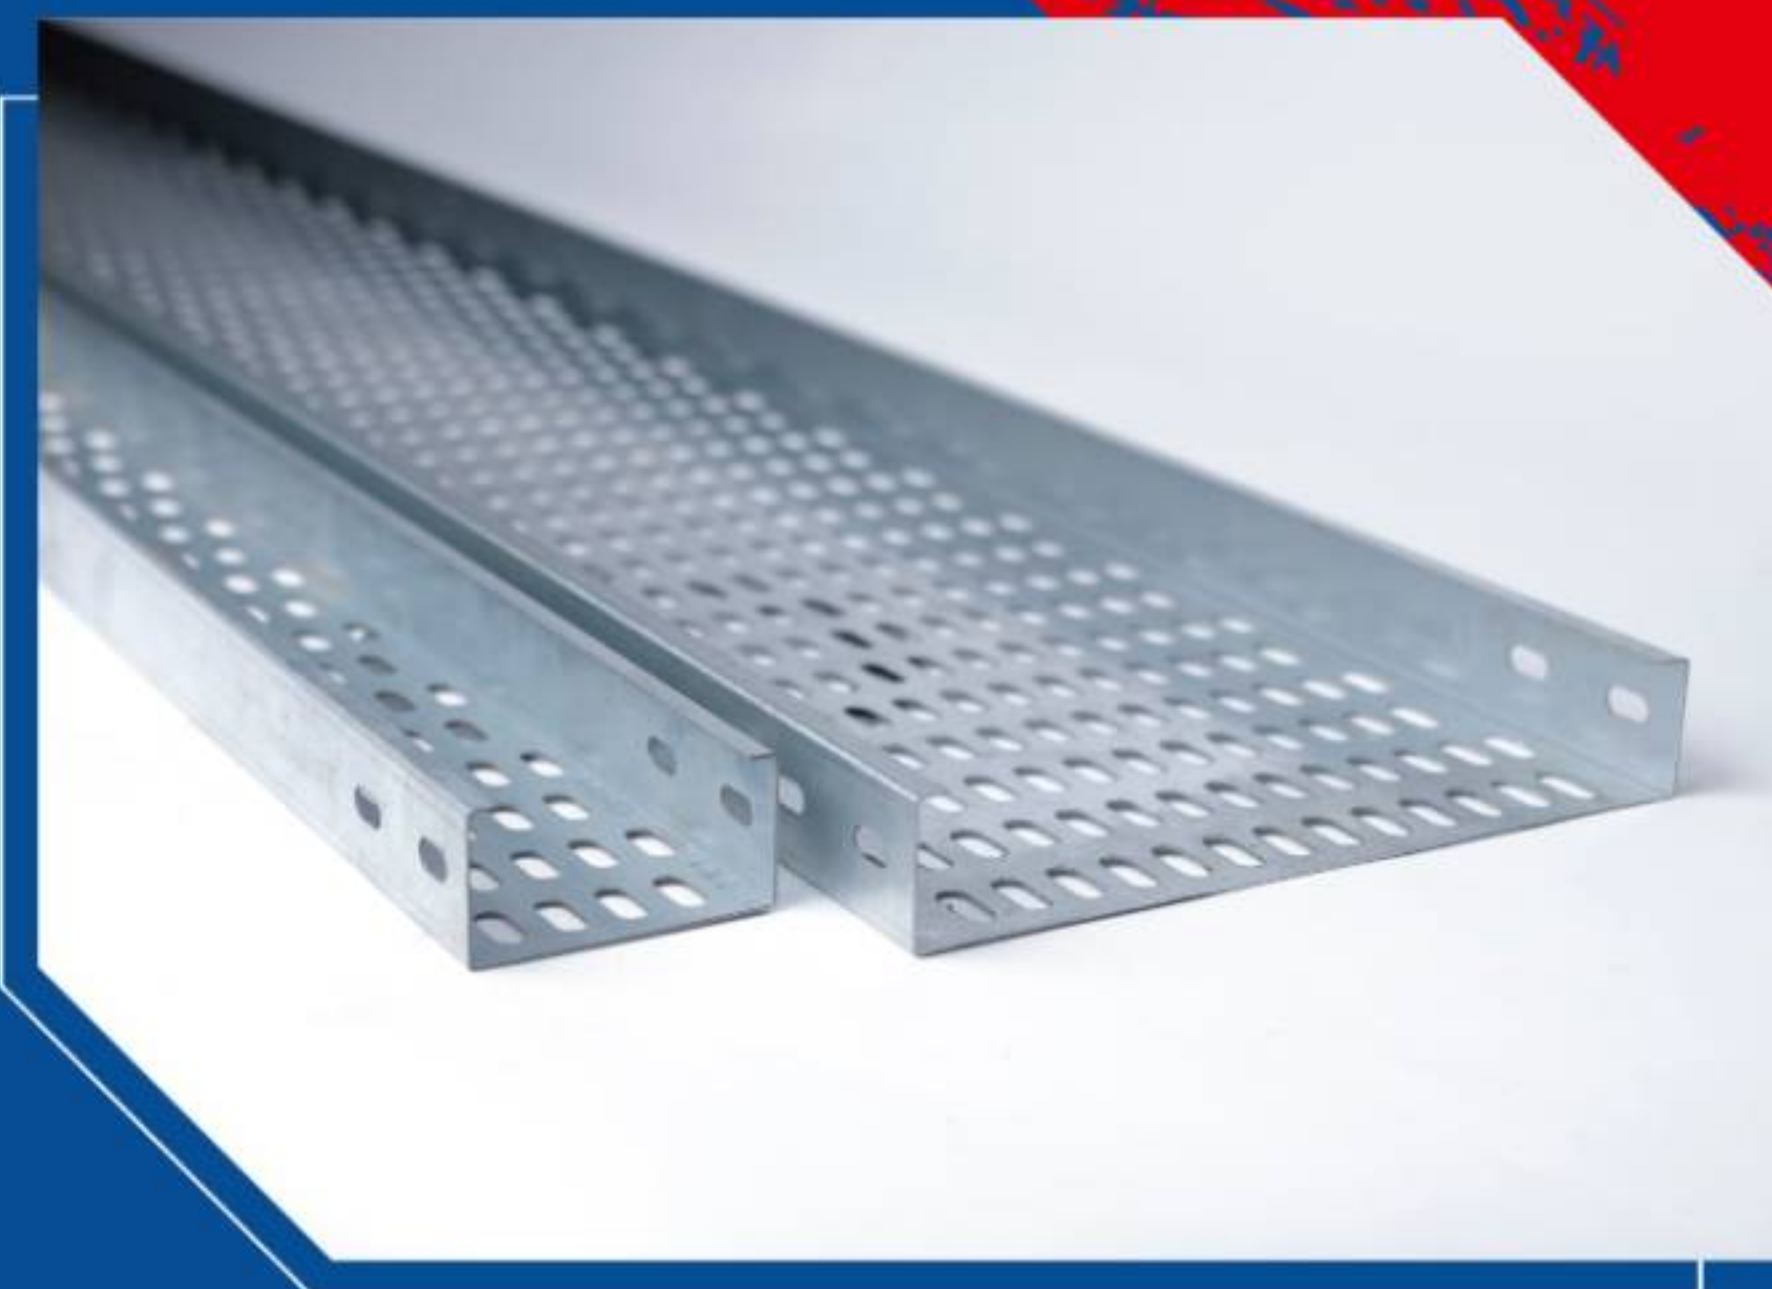

ENGINEERED FOR ENDURANCE

Engineered for strength and stability, our solar structures offer rust-proof, high-durability solutions for industrial and commercial needs. Ideal for customised solar panel systems, walkways & strut channels, ensuring reliable support in every setting.

CABLE TRAY

ORGANIZED, RELIABLE CABLE MANAGEMENT

Engineered for structured electrical installations. Corrosion-resistant, high-strength cable trays for safe and efficient cable organization.

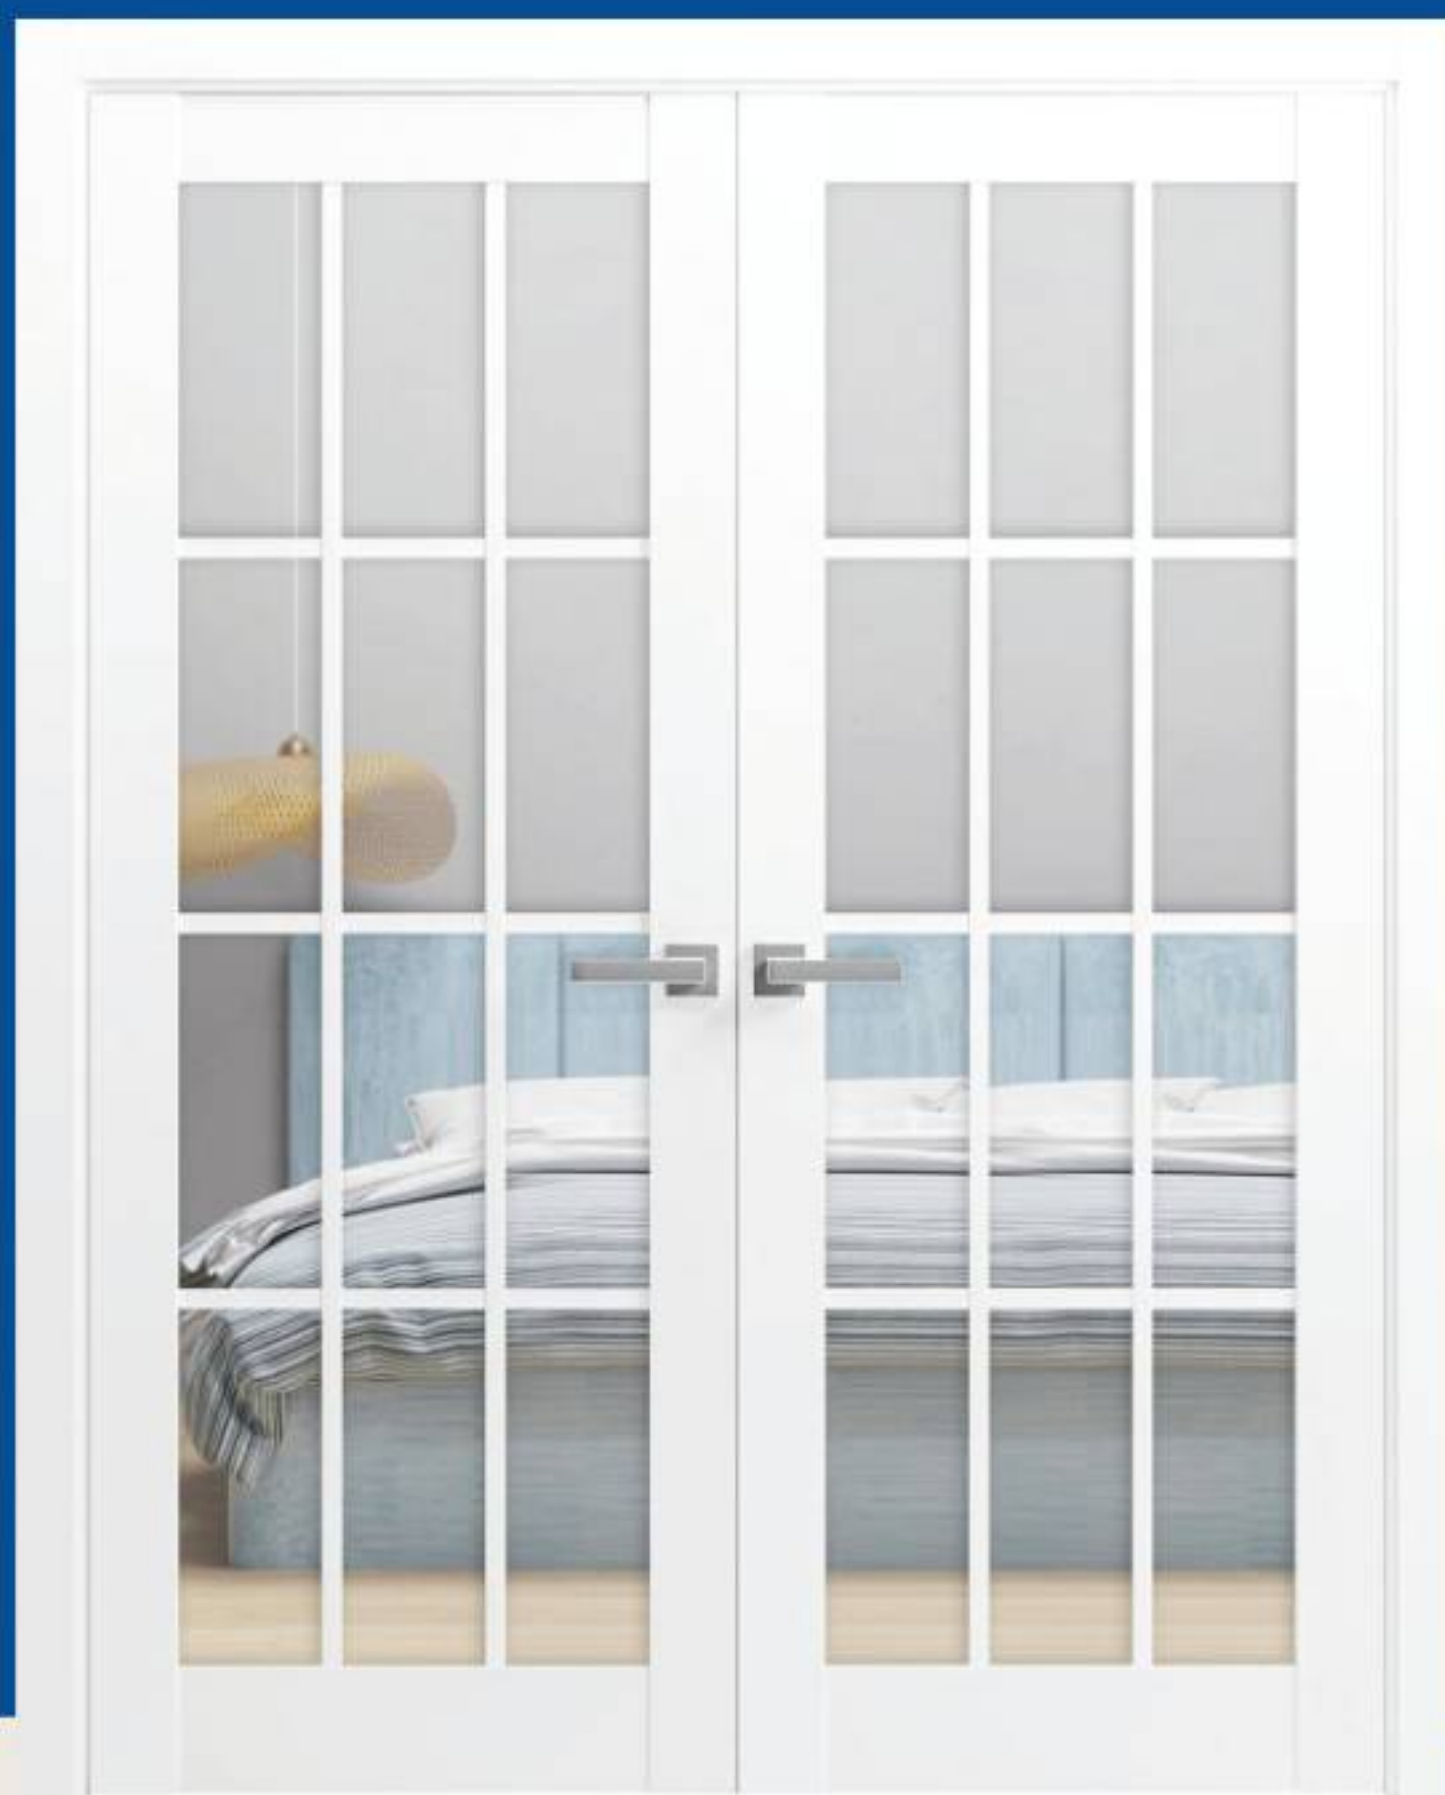

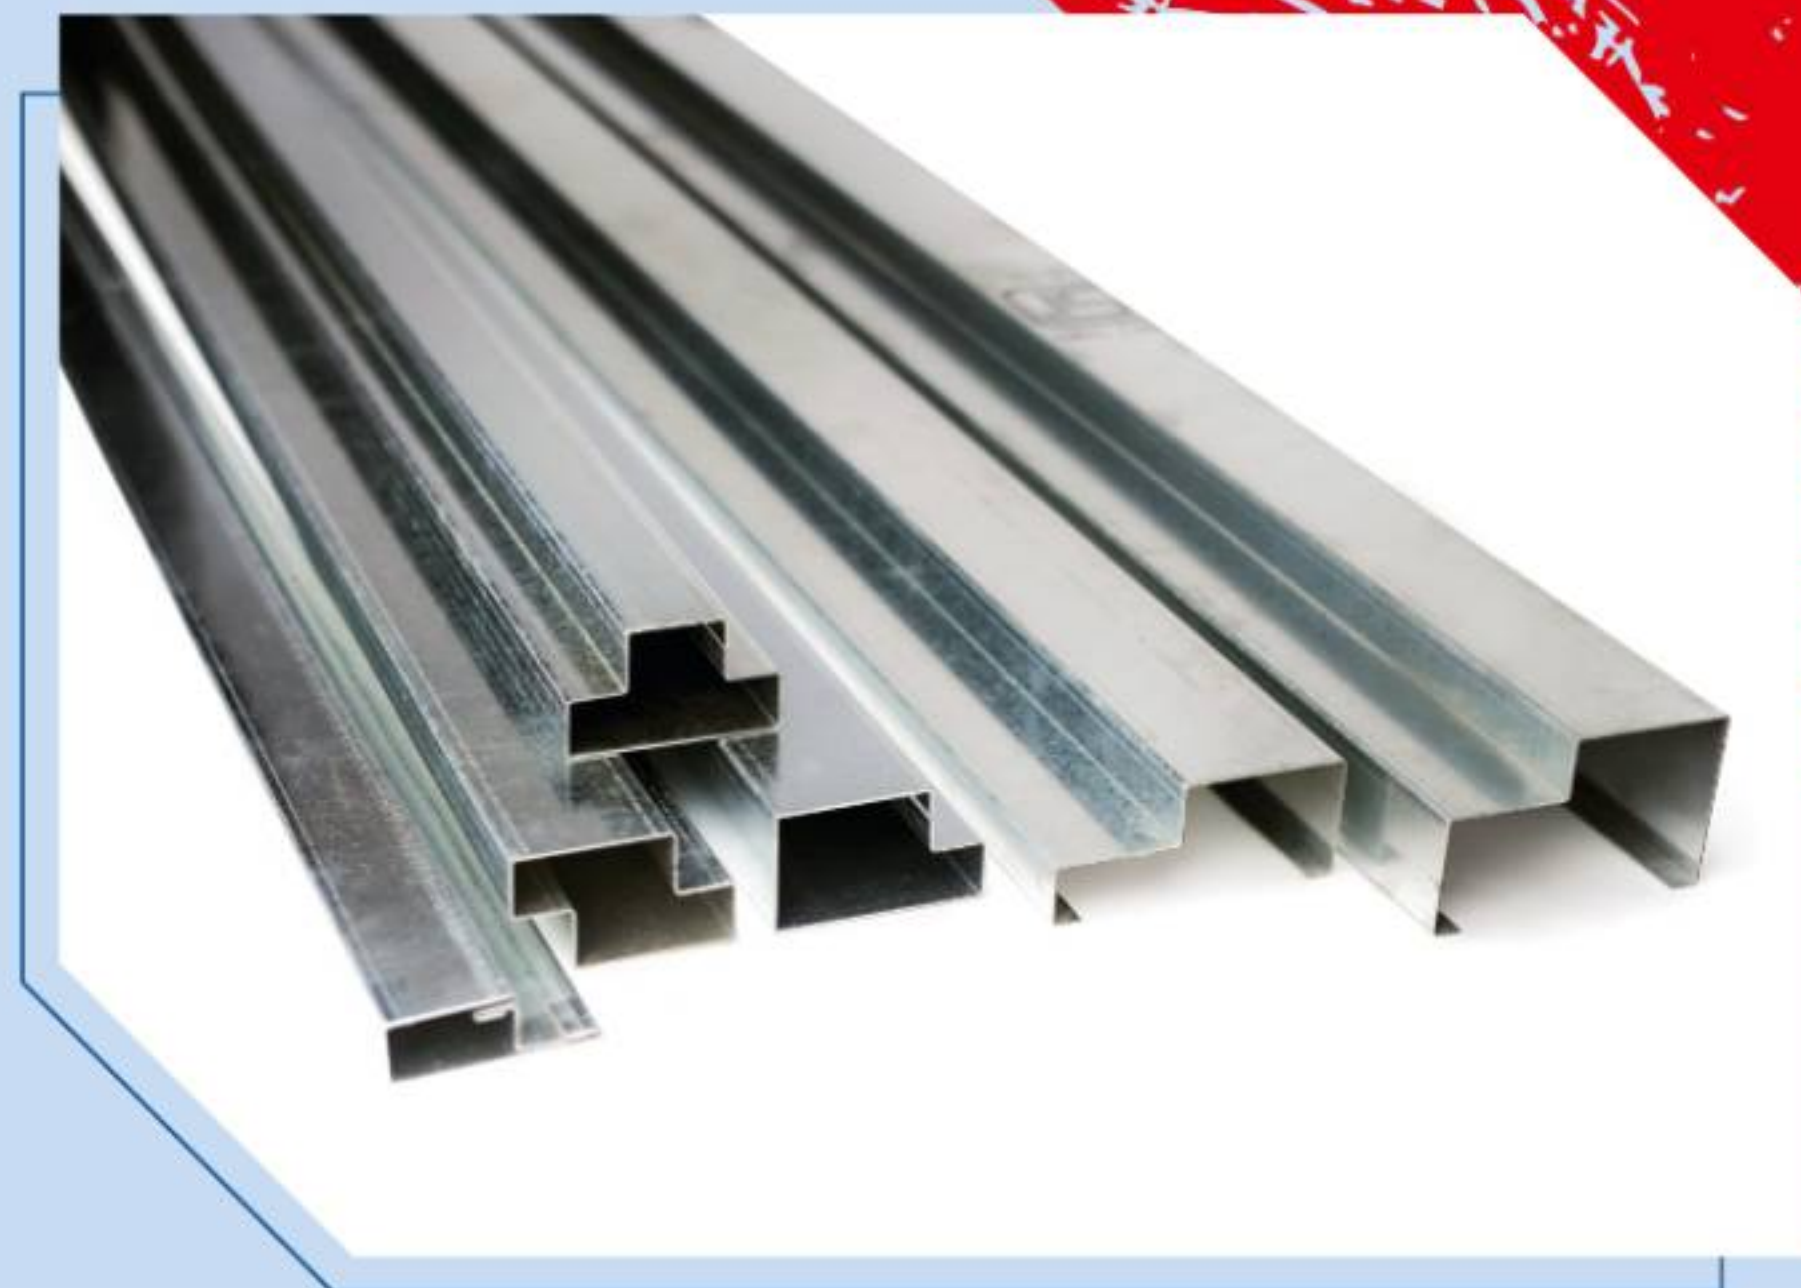

WIROCARE - CABLE TRAYS

Reliable Cable Management Solutions
Crafted from premium galvanized steel.
Rust-resistant & built for optimal cable
organization. Ensures safety & longevity
in industrial & residential settings

FRENCH DOOR

A FUSION OF ELEGANCE & STRENGTH

Stylish yet sturdy galvanized steel French doors. Rust-proof, water-resistant, and termite-resistant – a perfect upgrade from traditional wooden doors.

BISON[®]

Upgrade with Strength & Style Rust-proof and water-resistant for long-lasting beauty. Termite-resistant alternative to wooden doors. Modern, secure, and highly durable.

BISON - FRENCH DOOR SECTIONS

Engineered for strength and durability. Ideal for commercial and residential use.

WHY CHOOSE ROLLTOR ?

CUSTOMIZED SOLUTIONS

We offer tailor made solutions to match specific needs, ensuring precision in every product.

UNCOMPROMISED QUALITY

A stringent quality control process ensures that every product meets the highest industry standards.

INNOVATIVE PRODUCT DEVELOPMENT

We continuously seek innovative product ideas and optimize manufacturing procedures to enhance performance

CUSTOMER CENTRIC APPROACH

Collaborating closely with our clients, we ensure that all production technologies are considered while designing new shutter strips and other products.

COST EFFECTIVE SOLUTIONS

We guarantee that the consumer receives the greatest standard of quality while also receiving the most cost effective option.

📍 Block No. J-104, Near MSEB Office, Kupwad MIDC, Sangli, Maharashtra, India.
